Re: EPA's November 1, 2007 104(e) Requests for Information, Omega Superfund Site,
Whittier, CA directed to Harvey Sorkin, Seymour Moslin, and the Estate of Paul Maslin

Dear Ms. Ketellapper:

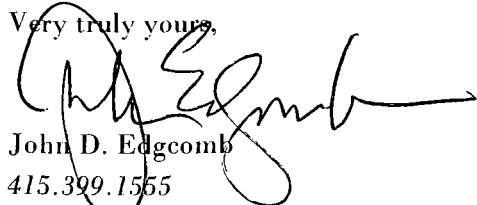

We are in receipt of EPA's November 1, 2007 104(e) Requests for Information regarding the Omega Superfund Site directed to Harvey Sorkin, Seymour Moslin, and the Estate of Paul Maslin (collectively "Sorkin parties").

As my associate Courtney LeBoeuf discussed with Steve Berninger on Friday, November 9th and as reflected in the enclosed Agreement of Sale (see paragraph 13), our client McKesson Corporation agreed to indemnify the Sorkin parties with respect to certain liabilities concerning the 9005 Sorensen Avenue, Santa Fe Springs, CA property. As such, a completion of the 104(e) requests for information regarding net worth by the Sorkin parties appears to be unnecessary at this time. We understand that USEPA preliminarily concurs subject to your review of the enclosure.

Please note that we assert a claim of business confidentiality over the attachment pursuant to 40 C.F.R. § 2.203.

We look forward to your confirmation that the enclosure fully responds to your request to the Sorkin parties.

Very truly yours,

John D. Edgcomb
